

VZ Events 2.1 Enhancements Now Available in Pre-Production

Volume I: Issue 2

Norfolk, V.A. – 20 October, 2015

Events

- iCal Notifications for administrators or staff event assignments about registration submissions
- Cancellation notifications for administrators
- Option to show or hide event when capacity has been met
- Sorting in the attendance module by First Name, Last Name, Registration ID and Registrant ID in ascending or descending order
- Create new registration from the attendance module
- Event Type clickable on public calendar (Under Legend)
- Location field added to event record
- Email Variable added - %EventLocation%
- End Date validation ensuring End Date is greater than Start Date
- Event Title field length increased

Registrations

- Copy and create new Registrant on registration form
- Default to current date when creating a new registration

System Data

- Edit list items on the question form
- Edit the menu items on the public calendar

Reports

- Ampersand (&) values allowed for data extraction
- Client specific reports

Web Services

- Import/Export Data Engine

Roll Out Process

1. Please submit a case through your Community Portal on what enhancements should be pushed into your production system.
2. All requests to push enhancements to production will be completed within 48 business hours of the request.

Coming Soon...

- Text Messaging to registrants who are registered to attend an event
- Wait list feature that allows registrants to hold a seat for full events and offering an automated process to notify when a seat has opened up
- Registrant grouping per event for an administrator (e.g. Counselor & Event Coordinator)
- Invitation lists to target your specific audience to begin registering for an event.
- Hover views in control panel to give quicker access to information
- Capacity management for Registrant Types
- RSVP lists to provide guaranteed seating for an event
- Check-in enhancements to provide easier check-in processing
- Adding calendar views (e.g. Default, Monthly, List) and searching for quicker access to events
- Payment check-out process to include discount/coupon codes
