Ours does; it sets you free to focus on what matters.

VZ Orientation® (VZO) is an online orientation reservation/management system built specifically for Orientation departments. VZO will automate your orientation process, allowing you to focus on your students' needs and provide your students with a dynamic and seamless experience that is as awesome as the orientation programs you run!

VZ Orientation® Features

- + **Create and manage unlimited orientation sessions**
- + **Dynamic session filtering such as Student Types, Semesters, Campuses, College, Majors and Student Groups**
- + **Configure multiple student/guest type specific fees and max capacities per event**
- + **Allow students to change their sessions, add/remove guests and make multiple online payments as necessary**
- + **Easy-to-use report wizard to generate unlimited custom reports**
- + **Automatic/scheduled emails such as:**
 - Confirmations
 - Notifications
 - Reminders

**VisualZen®
(VZ) provides
innovative, agile
technology for
the seamless
management
of the student
recruitment
and enrollment
life cycles.**

01 | Prospective Student

VZ Events® easily manages admission events, interviews and more, freeing your staff to work more directly with students.

02 | Applied Student

VZ Apply® is a customizable solution for every aspect of your admissions process, easy for students and staff alike.

03 | Admitted Student

VZ Task List™ guides the admitted student through all the steps to becoming an enrolled student.

04 | Orientation

VZ Orientation®, designed specifically for orientation departments, can save you time with managing niche populations, session-changing, and much more.

05 | Parents

VZ Parents™ allows you to stay in touch with your biggest fans. Communication has never been easier.

We help simplify the student experience with proven technology configurable for your needs.

Our Education arm, VZ Edu® allows students and administrators to experience a seamless process in both functionality and management. Learn more about our suite of products.
